

RESEARCH INTERESTS	My research interests center on data-driven decision-making under uncertainty, including robust and stochastic optimization, statistical learning, and probabilistic modeling, with applications to modern machine learning and large-scale decision systems.	
EDUCATION	The Hong Kong University of Science and Technology	Hong Kong
	<i>Ph.D. in Industrial Engineering and Decision Analytics</i>	2026 – 2030 (expected)
	Advisor: Prof. Yi Chen	
	University of Science and Technology of China	Hefei, China
	<i>B.S. in Statistics</i>	2021 – 2025
	Advisor: Prof. Canhong Wen	
PUBLICATIONS	1. Accelerating Discrete Langevin Samplers via Continuous Intermediates.	
	Guangyu Li and Ruqi Zhang.	
	<i>ProML Workshop, 2026.</i>	
	2. Understanding Generalization and Forgetting in In-Context Continual Learning.	
	Guangyu Li, Meng Ding, and Lijie Hu.	
	<i>International Conference on Machine Learning (ICML), 2026.</i>	
RESEARCH EXPERIENCE	In-Context Continual Learning	Oct. 2025 – May 2026
	<i>Research Intern, MBZUAI</i>	Abu Dhabi, UAE
	Advisor: Prof. Lijie Hu and Meng Ding	
	Discrete MCMC Sampling	Jul. 2024 – Mar. 2025
	<i>Research Intern, Purdue University</i>	West Lafayette, USA
	Advisor: Prof. Ruqi Zhang	
AWARDS AND HONORS	Outstanding Student Scholarship, USTC	2021 – 2024
	USTC Fellowship, USTC	2024
ACADEMIC SERVICE	Conference Reviewer: ICLR 2027
